## Personal Phone/Ex. 6

This is the best stretch to find a single channel, however I do not remember any big boulders to hide a minisipper behind. We got samples and flow here and down on the Jepsons stretch just below the confluence with Minnie.

So here is the humdinger: Sunnyside owns every parcel from 1200' above Minnie all the way to Eureka and over to County Road 2. This entire stretch is braided and, in my opinion, wouldn't give you a very complete picture for your minisipper investment.

Please email/call for anything else I can help with!

Thanks.

Lisa
